eDocument Delivery Agreement

This statement requests your consent to permit **Peak Credit Union** to provide communications and information to you in secure electronic form rather than in paper form for your selected accounts. Before you decide whether or not you wish to give your consent to receiving electronic notices and records, you should read and consider the following information. By accessing our service, you agree to the terms and conditions.

System Requirements

You must use a computer that has:

- Available browser updates applied for improved security that provide anti-virus and spyware protection.

- An internet connection with a minimum of 1 Mbps download speed.

  Note: Satellite connections often have difficulty supporting encrypted, Hypertext Transfer Protocol Secure (HTTPS) applications. Since online is HTTPS-encrypted for the safety of your financial information, some satellite cable connections may exhibit slow responses.

Email Requirement

- Valid and current email address

PDF Reader Requirements

- We recommend the most recent version of Adobe® Reader® (or equivalent pdf viewer) available for desktop and mobile devices.

Printing Requirement

- If you wish to print out your eDocuments, you will require a printer

Browser Requirements

- Browser support is subject to change with little to no notice and we encourage end users to configure browsers for automatic updates. Use the most recent versions available for the browsers listed in the following table for the most secure experience online. Any browsers not listed in the following tables should be considered unsupported.

  Notes:
  For the most secure and consistent experience on mobile devices and tablets, use our mobile app instead of mobile browsers. See the Mobile Requirements section for more information.

Compatibility mode and document mode settings in the browser are not supported. A browser not supported page will appear if a user attempts to log in via a browser with one of these modes set.

- Some supported browsers, as listed below, may show minor behavioral or cosmetic differences, but will generally support that application's features and functionality. Any browsers and respective versions not listed in the following tables should be considered unsupported.
